| PUC-II (12th class)  | Pre University Education, Bengaluru                 | Narayana independent pu college                            | 2014                  | 88.17                     |
| SSLC (10th class)  | Central Board Of Secondary Education, New Delhi     | Kendriya Vidyalaya Ballari (K V Ballari)                   | 2012                  | 8.6 (C.G.P.A)             |

## Technical Skills

- **Programming languages:** C, C++, JavaScript, Python 3
- **Operating systems:** Fedora(Linux), MS Windows
- **Web design:** HTML5, CSS
- **Frameworks:** Bootstrap, AngularJS, Ionic, Tkinter, Kivy

## Project Profile

- **Title:** RYMEC ACM student chapter's website (Oct 2016 - Nov 2016)  
**Abstract:** Built ACM student chapter website for my college using AngularJS and MDB frontend framework for college's ACM student chapter.  
Website URL: <http://rymec.acm.org>
- **Title:** Nearest railway station mobile app (Jan 2017 - Feb 2017)  
**Abstract:** Developed an android app using IONIC 2, which lists nearest railway stations from the current input location, further the app can displays live trains passing through each station and has routing capabilities. This project idea was featured in SIH-2017.
- **Title:** Attendance manager mobile app (Apr 2017 - May 2017)  
**Abstract:** This app is built using IONIC 3, basically helps faculties to manage their attendance list in an efficient way. The app stores all the records efficiently. The project idea was suggested by a CSE faculty at RYMEC, Ballari.  
Demo URL: <https://ksaikiranr.github.io/apps/att-mgr>

- **Title:** Facial recognition an added security level to mobiles and laptops (Feb 2018 - May 2018)  
**Abstract:** The proposed system enhances the security of mobiles and laptops. In mobiles and laptops the login consists of either a pattern lock or alphanumeric string both of which can be exploited/forged easily.
